

Preschool Craft

Color Viewer (15–20 minutes)

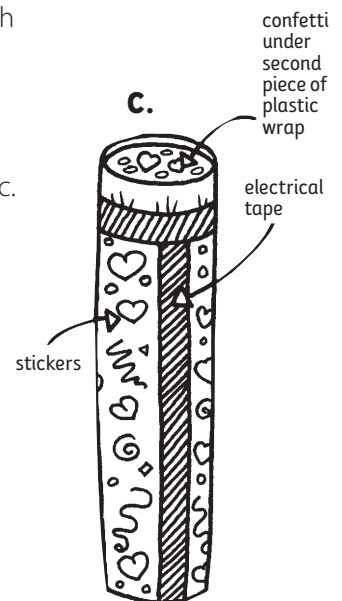

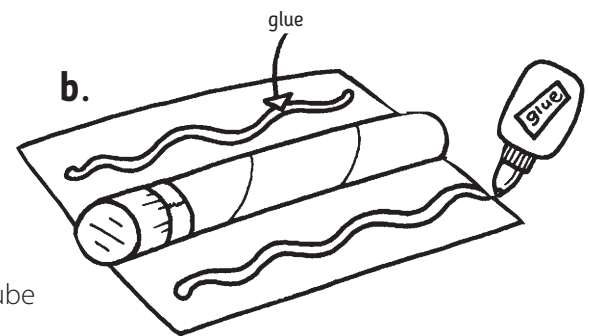

Preparation

Cut construction paper into 6x11-inch (15x27.5 cm) rectangles, making one for each child. Cut plastic wrap into 4-inch (10 cm) squares, cutting two for each child. Cover one end of each paper towel tube with one plastic wrap square by smoothing over tube end and attaching with transparent tape. Trim plastic wrap close to tape (image a).

Instruct each child in the following procedures:

- ① Decorate construction paper rectangle with markers and heart stickers.
- ② Apply glue to the back of construction paper rectangle. Then lay cardboard tube on top of glued side of paper. Wrap the paper around the tube (image b).
- ③ Leader cuts a piece of electrical tape the length of tube and helps tape the seam of paper closed.
- ④ Stand tube on table with plastic wrap on top. Place several pieces of confetti on top of plastic.
- ⑤ With an adult's help, loosely rubber band the second piece of plastic wrap over the confetti.
- ⑥ An adult uses a piece of electrical tape to securely tape plastic wrap edges to construction paper covering. Remove rubber band (image c).
- ⑦ Look through your Color Viewer and turn it to see the beautiful colors.

Materials

- ☐ clear plastic wrap
- ☐ variety of stickers (SonSpark Labs Stickers available from Liguori Publications)
- ☐ colored electrical tape
- ☐ variety of plastic confetti (preferably transparent)

For Each Child

- ☐ one cardboard paper towel tube
- ☐ one rubber band

Standard Supplies

- ☐ scissors
- ☐ variety of construction paper
- ☐ ruler
- ☐ transparent tape
- ☐ markers
- ☐ glue

Conversation

When you look in your Color Viewer, you see lots of pretty colors and shapes. God gave Adam and Eve a beautiful place to live and wonderful food to eat. But Adam and Eve ate something they weren't supposed to. When we do something against God's teachings on purpose, it's called sin. And sin separates us from God. We're going to hear more about what we can do to be close to God. We want to be close to God because God loves us!
